NOUHA DJOBBI

Software Engineering | Data Science | AI | Cybersecurity

Bou Argoub, Nabeul, Tunisia | +216 22 362 591 | djobinouha130@gmail.com

Software engineering graduate pursuing a Master's in Data Science, with experience in mobile and web development and a focus on AI-powered network security.

EXPERIENCE

DataDoit | Feb 2025 – May 2025

Intelligent Mobile Application Development
- Designed and developed a cross-platform mobile app using Flutter.
- Implemented authentication, database and notifications with Firebase.
- Built backend services with Django REST Framework.
- Integrated AI models to power intelligent features.

Haltone Technologies | Jul 2024 – Aug 2024

Web Application Development — E-learning Platform
- Contributed to an educational web app using Symfony and PHP.
- Designed user interfaces with HTML, CSS and JavaScript.
- Integrated dynamic pages and server-side logic.

PROJECTS

SentinelAI — Network Intrusion Detection

Completed | Python, Pandas, NumPy, Scikit-learn

Machine-learning classifier that labels network connections as normal or malicious using the NSL-KDD dataset.
- Compares Logistic Regression and Random Forest
- Feature selection & hyperparameter tuning
- Class imbalance & threshold optimization
- Precision, recall, F1, confusion matrices, ROC

SentinelAI — Hybrid Intrusion Detection System

In development | ML, Deep Learning, Anomaly Detection

Research project combining Machine Learning, Deep Learning and Anomaly Detection for network traffic analysis.
- Supervised classification of known attacks
- Deep architectures for traffic analysis
- Anomaly detection for unseen attacks
- Benchmarking detection & false-positive rates

TECHNICAL SKILLS

Languages: Python, Java, PHP, JavaScript
Software & Web: Flutter, Django REST, Symfony, HTML, CSS
Data Science & AI: Machine Learning, Data Analysis, Pandas, NumPy, Scikit-learn
Cybersecurity: Network Security, Intrusion Detection, Vulnerability Analysis, SIEM
Databases & Cloud: SQL, Firebase
Tools: Linux, Git, GitHub, VS Code, Jupyter

EDUCATION

Master's Degree in Data Science | 2025 – Present
ISLAI Béja

Bachelor's in Computer Science — Software Engineering | 2022 – 2025
ISLAI Béja

Baccalaureate | 2022
Lycée de Bou Argoub

CERTIFICATIONS AND CHALLENGES

- Cyber Security Bootcamp — CompTIA Security+ (SY0-701)
- Cisco Cybersecurity Certifications
- Python Certificate
- Smart City AI Challenge

LANGUAGES AND INTERESTS

Arabic | French | English
CTFs, TryHackMe and Hack The Box labs; machine learning and intrusion detection.
